The "Hawk Egg" Drop Challenge Illustration
Sponsored by Moulton PTA
Science Week | Due **November 9th, 2023 by 7:30AM**

The Challenge: To build an egg container/lander that will protect a raw, uncooked egg as it is dropped from a high ladder by the PTA! Get creative with your design and have fun!

Recommended Materials: paper towels, straws, tape, cardboard, paper, popsicle sticks, baggies, or cotton balls.

Please illustrate your design and label all materials used in the box below.

Explain why you think your design will protect an egg from breaking from a high fall:
